

I am writing in support of local radio programming provided by K-LOVE. My family and I benefit from the positive, family-friendly music and news. There is not another broadcaster in our area carrying contemporary Christian music and national news stories 24 hours a day. In addition, K-LOVE provides public interest spots to area groups that are hosting events that are free of charge. This station is vital to our local public, and there place cannot be adequately filled by any other broadcaster.
